Towards a mW-scale Attosecond Source

Wednesday 3 July 2019 18:00 (2 hours)

Intra-cavity based harmonic sources have enabled the generation of extreme ultraviolet frequency combs and are attracting increasing attention as attosecond sources. We here discuss recent advances and our efforts towards a high power attosecond source.

Authors: BALLA, Prannay (DESY / HI Jena); SALMAN, Sarper (DESY / HI Jena); Dr LI, Chen (DESY); Dr WINKELMANN, Lutz (DESY); Dr MAHNKE, Christoph (DESY); Dr HARTL, Ingmar (DESY); Dr HEYL, Christoph M. (DESY / HI Jena)

Presenter: Dr HEYL, Christoph M. (DESY / HI Jena)

Session Classification: Poster session 2
