## CEP-stabilized, sub-18fs, 10kHz and TW-class 1kHz Dual Output Ti:Sa Laser with Wavelength Tunability Option

*Wednesday 3 July 2019 18:00 (2 hours)*

We present a CEP-stabilized, sub-20fs Ti:Sa laser delivering 1 TW peak power pulses at 1 kHz and 20 W average power at 10 kHz. Its output wavelength is tunable within a 90 nm range around 800 nm.
