Nature and Coherence of the Molecular-ion Electronic State Prepared by Attosecond Ionization

Thursday 4 July 2019 17:45 (15 minutes)

Here we elucidate the nature of the initial state for the hole-migration dynamics following ultra-fast ionization in the molecular ion, by quantitatively predicting its electronic coherence and eigenstates content.

Authors: Dr RUBERTI, Marco (Imperial College London); Prof. DECLEVA, Piero (Universita' di Trieste); Dr AVERBUKH, Vitali (Imperial College London)

Presenter: Dr RUBERTI, Marco (Imperial College London)

Session Classification: New approaches for measuring atomic and molecular dynamics
