Coherent Synchrotron Emission Source from Few Cycle Laser Driven Relativistic Surface

Wednesday 3 July 2019 18:00 (2 hours)

Interaction of intense femtosecond laser pulses with solid surface provides a promising opportunity to reach ultrashort radiation in XUV region of the spectrum efficiently. A comprehensive insight into this direction is provided.

Authors: SHIROZHAN, Mojtaba (ELI-ALPS, ELI-HU Non-Profit Ltd.); Dr MONDAL, Sudipta (ELI-ALPS, ELI-HU Non-Profit Ltd.); Dr KAHALY, Subhendu (ELI-ALPS, ELI-HU Non-Profit Ltd.)

Presenter: SHIROZHAN, Mojtaba (ELI-ALPS, ELI-HU Non-Profit Ltd.)
