ATTOLAB SE10: a Versatile and Integrated Beamline for Attosecond Physics on Gases and Surfaces

Wednesday 3 July 2019 18:00 (2 hours)

After a technical description of the beamline, the first two experimental campaigns achieved in 2018, and preliminary results, will be briefly presented.

Authors: BRESTEAU, David (Université Paris-Saclay, CEA Saclay); SPEZZANI, Carlo (Elettra-Sincrotrone Trieste); TCHERBAKOFF, Olivier (Université Paris-Saclay, CEA Saclay); HERGOTT, Jean-Francois (Université Paris-Saclay, CEA Saclay); D'OLIVEIRA, Pascal (Université Paris-Saclay, CEA Saclay); DELHINGER, Maël (Université Paris-Saclay); DELMOTTE, Franck (Université Paris-Saclay); DENNETIERE, David (Synchrotron SOLEIL); DEROSI, Sébastien (Université Paris-Saclay); LENFANT, Julien (Université Paris-Saclay, CEA Saclay); POLACK, Francois (Synchrotron SOLEIL); RUCHON, Thierry (Université Paris-Saclay, CEA Saclay)

Presenter: BRESTEAU, David (Université Paris-Saclay, CEA Saclay)

Session Classification: Poster session 2
